	15%	8%	7%	-	-	-	85%										
	<b>Dimension</b>	100 cm x 60 cm. Spessore da 1 cm a 22 cm															
<b>Description</b>	Lastre in Polistirene Espanso Sinterizzato (EPS), autoestinguenti. Le lastre ECO COLOREX coniugano le caratteristiche proprie dell'EPS white con le elevate performance dell'EPS in grafite che interviene sul calore che si propaga per irraggiamento riducendone la filtrazione. Le lastre ECO COLOREX rappresentano un'ulteriore evoluzione ecologica in quanto realizzate con circa il 20% di materiale rigenerato per rispettare i requisiti richiesti dai Criteri Minimi Ambientali (CAM). Sono realizzate con spessori variabili tra 6 e 22 cm e provviste di pretagli detensionanti per ridurre gli effetti degli shocks termici a cui sono sottoposte le lastre di spessore elevato. Colore: nero-azzurro
