Description	La nuova soluzione low cost alla tracciabilità dei rifiuti. TrackBag è il nuovo sacchetto in grado di controllare, tramite uno specifico sistema di lettura, il corretto uso dei sacchetti per il conferimento dei rifiuti permettendo alle Amministrazioni di partire con progetti di identificazione ad un costo contenuto. Con TrackBag® è infatti possibile: ridurre il quantitativo di sacchi erogato monitorandone la distribuzione alle utenze, responsabilizzare il cittadino al corretto conferimento delle varie tipologie di rifiuti, contenere i costi di smaltimento, predisporre un sistema premiante. L'utilizzo di TrackBag, in sinergia con RadioBag, rappresenta la soluzione alle difficoltà dovute all'identificazione di materiali ostili al rilevamento tramite tecnologia Rf-Id.
