

Polyester Polyol – Hoopol F-3380

Features

Poliestere

Dimension

peso molecolare medio 4550g/mol. Viscosità 4000-6000 cPs

Product informations

Commercial name: Polyester Polyol - Hoopol F-3380

Material:

PSV MixEco

Recycled total	Post-consumer recycled	Pre-consumer recycled	By-product total	External by-product	Internal by-product	Virgin material
38%	--	--	--	--	--	62%
